The Omera Difference

Most bike shops are intimidating, fluorescent-lit, and focus on performance metrics.

Omera is the opposite.

Accessible

One bike, one price ($999). No jargon, no upsell pressure.

Aesthetic-First

The bike is beautiful. The space is beautiful. The coffee is good.

Community-Driven

We're not selling transportation. We're selling a lifestyle choice that prioritizes craft, simplicity, and the city.

Grunerlokka is where Oslo's independent, design-conscious, coffee-drinking cyclists already live. We're building the space they've been waiting for.

NEXT STEPS

1. Scout 3-5 available Grunerlokka popup spaces
2. Finalize Omera bike specs and sizing
3. Confirm budget (~$35-45k for 8-week run)
4. Design and build plywood furniture
5. Source vintage leather sofas + espresso machine
6. Hire cycling-literate barista
